Attn: Mike Keller

Dear Mr. Keller,

EcoTherm is a hazardous waste disposal firm that can offer your company a New and Economical alternative for your waste.

We accept DRUMS ONLY! We transport them to our overseas facilities for incineration disposal. Incineration is accomplished professionally and Forever!

Our brochure attached is the STORY!

Our set-ups overseas are limited in capacity, so call now for service dates.

Thank You,

*Gordon Cox*

HAZAR  
WAST  
DISPO  
WHEN  
WE  
SAY  
IT'S  
GONE  
IT'S  
GONE

## E C O T H E R M

☐ **Sitting on a ticking time bomb isn't smart. But if you have a storage yard full of undisposed hazardous waste, that's exactly what you're doing.**

Now there's an answer:  
**EcoTherm.** We take that waste off your hands — in a safe, legal, environmentally sound way.

No more expensive storeyard maintenance. No more public relations headaches. Just call EcoTherm.

PICK IT UP, SHIP IT OUT, BURN IT UP: THE ECOTHERM STORY

**EcoTherm assumes responsibility** for waste materials from the moment we pick them up — so you can stop reading right here if you want to. But just in case you're curious, here's what happens next:

☐ **1. PICK IT UP — We pick up your hazardous waste at the generation site. The moment we pick it up, we assume responsibility for it.**

**2. SHIP IT OUT — We then transport the waste in safe 55-gallon drums to one of our disposal sites outside the U.S.**

**3. BURN IT UP — The waste is thermally destroyed in the most powerful burner available.**

We'll also run lab tests, do soil washing, and take care of practically anything else you need to be sure your waste is safely disposed of.

### **Here's What We Take . . .**

Halogenated hydrocarbons  
Lithium Acid  
Insecticide  
Solvents  
Herbicides  
Organic compounds

### **Here's What We Turn It Into . . .**

**Nothing!** Our powerful incinerators destroy your hazardous waste.

☐ **THE UNSOLVABLE PROBLEM HAS JUST BEEN SOLVED!**

You're not looking for someone to "manage" your hazardous wastes. You're looking for someone to *get rid of them* — and EcoTherm can do it.

Interested in letting EcoTherm solve your unsolvable problems? Return this postage-paid card or call us today.

EcoTherm. When we say it's gone . . . it's gone.

*Gordon Cox*

☐ **I'VE GOT A PROBLEM THAT USED TO BE UNSOLVABLE. PLEASE CONTACT ME TO TALK TO ME MORE ABOUT ECOTHERM.**
